Kenya Methodist University Digital Repository

Nancy Kamau, Faith Mwiti, and Simon Machiri

ADHL Workshop, KUCC, 15th -17th October 2018

Introduction

- Kenya Methodist University
- Background to Digital Repository- started in 2013
- Initial support from University of Nairobi library
- Policy drafted and approved by University Senate in 2014
- 2018 policy revised to include the open access component approval in process.
- Project implementation - Library, ICT and Academic Schools

Components of the digital repository policy

Major areas of Policy

- Types of content
- Content collection/submission
- Information access and use
- Metadata
- Standards,
- Copyright
- Quality control
- Role of stakeholders
- Preservation

Open Access Policy Statement

- In KeMU the concept of open access to content is reflected in the University's mission of promoting excellence in scholarship, research and selfless service to the community.
- In support of the principle of open access the University expects its members, as authors of scholarly and academic literature to maximize the availability, accessibility, usage and application of their findings

Procedure and guidelines

Metadata policy

- Metadata schema uses Dublin Core Standards.
- Metadata shall be freely accessible.
- Repository manager in-charge of metadata

Quality control

- All submissions subject quality control in accordance with University regulations.
- Depositor responsible for the validity and authenticity of the submission.
- Repository manager ensures content in repository mets submission criteria.

Access and use

- Where KeMU, student or member of staff owns copyright to the work deposited in KeMU digital repository, the Attribution, Non-Commercial- No-Derivatives Creative Commons (CC) end-user license will be applied.
- In case of embargo from publisher or restriction from copyright holder to full-text access to material, only metadata describing the material will be included in the repository and made publically available.

Standards

- Management and operation of the repository is in accordance with the international standards such as metadata for item description, file formats, archiving, preservation, access and use.

Roles and responsibility

Policy details roles of different stakeholders

- University Management
- University academic departments
- University library
- Research & Innovation Directorate
- Postgraduate Directorate
- ICT Department

Roles and responsibility ---Continued…

- **University library**
  - ✓Coordinate the collection of content and workflow to the digital repository.
  - ✓Maintain and manage the digital repository through verifying online submissions
  - ✓Maintain the quality of materials included in the digital repository.
  - ✓Compliance of copy right.
  - ✓Organize copyright clearance to facilitate open access to research outputs wherever possible.
  - ✓Monitor and evaluate the implementation of the policy with a view to forming a basis for review.

System implementation

- Training- Library and IT staff

  DSpace upgrade from 5.x to 6.x Customization

  Older dspace had malicious cyber attack

- Customization is still a challenge
- Registration of repository with OPENDOAR - URL

  http://v2.sherpa.ac.uk/id/repository/4110

System updates and maintenance

- Installation and Customization to reflect corporate image
- Software Upgrade and enhancements
- Back up of the system to ensure Business continuity plans

Current status of repository

what's been done

- Purchase, testing and installation of equipment- server, scanner, 2 laptops and 2 projectors
- DSpace upgrade & customization
- Training- Library, IT staff and Faculty
- Content collection

Current status of repository

What's been done

- Scanning of content and Uploading of scanned content
  - ✓170 items scanned and uploaded
- Repository users training
  - ✓ faculty and students
- Registration of repository with OPENDOAR
  - ✓URL http://v2.sherpa.ac.uk/id/repository/4110
- Medical journals survey

Current status of repository

What's left to do?

- Integration with Google scholar to promote visibility
- Setting up of content curation systems.
- Data gathering for Impact assessment.
- Data analysis and reporting

Challenges

- Staff turnover
- Staff skills gap
- University network downtime

Future plans

- Capacity building for staff
- Develop a ADHL specific Community
- Enhance marketing and promotion
